Docket No. 98N-1265

Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have been using a specially compounded medication for over ten years. It has helped to alleviate depression, anxiety, sleeplessness. My compounded prescription has left me with a much better quality of life than I had before I began using it. I feel that it would be a grave mistake to limit needed medications of this nature, to those who so badly need them. People from all walks of life and every state benefit from these prescriptions - they are need this freedom of choice!
